Consultant Physician and Honorary Professor of Diabetic Medicine, University of Sheffield, Sheffield, UK

touchREVIEWS in Endocrinology

Established: December 2005 Frequency: Bi-annual

Current edition: Volume 22 Issue 2, 2026

Aims and scope

- *touchREVIEWS in Endocrinology* enables time-pressured physicians to stay abreast of major advances and opinions in endocrine practice.
- *touchREVIEWS in Endocrinology* comprises balanced and comprehensive articles, addressing the most important and salient developments in the endocrinology field.
- *touchREVIEWS in Endocrinology* endeavours to support physicians, clinicians and related healthcare professionals in continuously developing their knowledge, effectiveness and productivity. The editorial policy has been designed to encourage discussion among this peer group.
- Comprehensive bibliographies for each article mean that *touchREVIEWS in Endocrinology* is an informative and valuable reference tool for use throughout the year.
- All articles are subject to peer review, and must adhere to the ICMJE, GPP 2022, and COPE guidelines.

Structure and format

- *touchREVIEWS in Endocrinology* is a peer-reviewed, free-to-access, bi-annual journal comprising review articles, original research, case reports, editorials, expert interviews and practice pearls.
- The structure of each edition of the publication comprises section categories determined by the Editor. The degree of coverage assigned to each category is the decision of the Editor, and in part reflects the views of the Editorial Board.
- All articles disclose any author financial and non-financial relationships and activities, along with any funding, financial support and medical writing assistance.
- Each edition of *touchREVIEWS in Endocrinology* is published in full online at www.touchENDOCRINOLOGY.com

Editorial expertise

touchREVIEWS in Endocrinology is supported by various levels of expertise.

- Guidance from an Editorial Board consisting of leading authorities from a variety of endocrine disciplines.
- Invited contributors who are recognized authorities from their respective fields.
- Peer review: conducted by experts appointed for their experience and knowledge of a specific topic.
- An experienced team of Editors and Technical Editors.

Peer review

- On submission, all articles are assessed by the Editor to determine their suitability for inclusion and appropriateness for peer review.
- The Editor identifies appropriate reviewers, who are selected on the basis of their specialist knowledge in the relevant area, following consultation with a member of the Editorial Board where necessary.
- We aim to have the final peer review decision within 4 weeks.
- Following review, papers are either accepted without modification, returned to the author(s) to incorporate required changes or not accepted for publication.

- The Editor reserves the right to accept or reject any proposed amendments on the advice of the Editorial Board and reviewers.

Submissions and instructions for authors

- The Editor commissions articles with guidance from the Editorial Board and unsolicited articles are welcomed.
- The Editor is always keen to hear from authors wishing to discuss potential submissions, and will give due consideration to any proposals. Please contact the Editor for further details: editorialmanager@touchmedicalmedia.com
- Instructions for authors are available from the website www.touchENDOCRINOLOGY.com

Distribution and readership

touchREVIEWS in Endocrinology is distributed globally, on a bi-annual basis, through controlled circulation to healthcare and pharmaceutical professionals in the field.

Abstracting and indexing

touchREVIEWS in Endocrinology (formerly *EU Endocrinology*) is abstracted, indexed and listed in PubMed Central, Embase, EBSCO, Genamics JournalSeek, Google Scholar and IndexCopernicus.

Copyright

Authors transfer copyright of their article to Touch Medical Media, who publish the article as free-to-access to registered users.

Free-to-access

All articles are free-to-access, which allows anyone in the endocrinology field to download published articles free of charge.

Online resources

www.touchmedicalmedia.com provides clinicians and other industry professionals with free resources spanning nine therapy areas including cardiology, endocrinology, hematology, immunology, infectious diseases, neurology, oncology, ophthalmology, and respiratory and pulmonary diseases.

Society partners

touchENDOCRINOLOGY.com has developed very valuable society partnerships with the most respected not-for-profit medical societies internationally.

These partnerships are key as touchENDOCRINOLOGY.com helps to promote awareness of these medical societies while also providing free-to-access, peer-reviewed articles and multimedia content to the society members, which ensures that the industry is kept up-to-date with the latest cutting-edge content and opinion from world-renowned doctors.

About Touch Medical Media

Touch Medical Media publishes a rich and diverse portfolio of free-to-access, peer-reviewed journals across the clinical and pharmaceutical arenas. Touch Medical Media aims to assist in the education and practice of healthcare and pharmaceutical professionals. 

Contents

Foreword

1 Foreword

John Doupis

Director, Diabetes Division, Iatriko Palaioi Falirou Medical Center and Internal Medicine and Diabetes Department, NS Naval Hospital, Athens, Greece

Editorial

Pituitary Disorders

2 Cannulated prolactin test: Useful test to investigate patients with mild hyperprolactinemia?

Tânia Matos,¹ Daniela Dias,¹ Inês Sapinho¹ and Pedro Marques^{1,2}

1. Endocrinology Department, Hospital CUF Descobertas, Lisbon, Portugal; 2. Faculty of Medicine, Universidade Católica Portuguesa, Lisbon, Portugal

Review

Diabetes

4 Balancing clinical benefits and behavioral risks of obesity-focused management in youth-onset type 2 diabetes: A narrative review

Rutha Chivate,¹ Caroline Christian,² Abigail Hartman,³ Afsana Dhali,⁴ Andrea B Goldschmidt² and Mary Ellen Vajravelu⁵

1. University of Pittsburgh School of Medicine, Pittsburgh, PA, USA; 2. Department of Psychiatry, University of Pittsburgh School of Medicine, Pittsburgh, PA, USA; 3. Diabetes Wraparound Program, UPMC Children's Hospital of Pittsburgh, Pittsburgh, PA, USA; 4. University of Pittsburgh, Pittsburgh, PA, USA; 5. Department of Pediatrics, Division of Pediatric Endocrinology and Center for Pediatric Obesity and Metabolism, University of Pittsburgh School of Medicine, Pittsburgh, PA, USA

10 Type 2 diabetes and the cardio-renal-metabolic syndrome: The evolving roles of GLP-1 and dual GLP-1/GIP receptor agonists

Clipper F Young,¹ Namrita George,² Alexander Olson¹ and Diana Isaacs³

1. Touro University California College of Osteopathic Medicine, Vallejo, CA, USA; 2. Kirk Kerkorian School of Medicine at the University of Nevada, Las Vegas, NV, USA; 3. Cleveland Clinic Endocrinology & Metabolism Institute, Cleveland, OH, USA

General Endocrinology

20 Non-diabetic endocrine neuropathies: A practical approach to diagnosis and clinical evaluation

Marcio J Concepción-Zavaleta,¹ Jenyfer M Fuentes-Mendoza,¹ Luis Concepción-Urteaga,² Juan Eduardo Quiroz-Aldave,³ Arturo Basurto-Ayala⁴ and Jose Paz-Ibarra⁵

1. Grupo de Investigación en Neurociencias, Metabolismo, Efectividad Clínica y Sanitaria, Universidad Científica del Sur, Lima, Peru; 2. School of Medicine, Universidad Nacional de Trujillo, Trujillo, Peru; 3. Division of Research, Hospital de Apoyo Chapén, Chapén, Peru; 4. Family Medicine, Hospital Voto Bernales, Lima, Peru; 5. Division of Endocrinology, Hospital Nacional Edgardo Rebagliati Martins School of Medicine, Universidad Nacional Mayor de San Marcos, Lima, Peru

Contents

Metabolic Disorders

31 Disease-modifying approach to cardiovascular-kidney-metabolic syndrome: The role of combining GLP-1RAs and SGLT-2is

Sanja Borozan,¹ Cornelius J Fernandez,² ABM Kamrul-Hasan,³ Sunil Nair^{4,5} and Joseph M Pappachan^{4,6,7}

1. Department of Endocrinology, Clinical Centre of Montenegro & Faculty of Medicine, Podgorica, Montenegro; 2. Department of Endocrinology & Metabolism, Pilgrim Hospital, United Lincolnshire Hospitals NHS Trust, Boston, UK; 3. Department of Endocrinology, Mymensingh Medical College, Mymensingh, Bangladesh; 4. Department of Endocrinology, Countess of Chester Hospital NHS Trust, Chester, UK; 5. Faculty of Health, Medicine and Society, The University of Chester, Chester, UK; 6. Faculty of Science, Manchester Metropolitan University, Manchester, UK; 7. Department of Endocrinology, Kasturba Medical College, Manipal, Manipal Academy of Higher Education, Manipal, Karnataka, India

Original Research

Diabetes

41 Clinical outcomes of tirzepatide in a real-world follow-up cohort of patients with type 2 diabetes

Thein M Tun,¹ Muhammad Sabir,¹ Hasanain Alismael,¹ Alice Gatenby,¹ Theint T Su,¹ Lucy Walters,² Timothy Green,³ Stephen C Bain,^{3,4} Richard Chudleigh,³ Rajesh Peter,² Jeffrey W Stephens^{1,4} and Thinzar Min^{2,4}

1. Diabetes Department, Morriston Hospital, Swansea Bay UHB, Swansea, UK; 2. Diabetes Department, Neath Port Talbot Hospital, Swansea Bay UHB, Swansea, UK; 3. Diabetes Department, Singleton Hospital, Swansea Bay UHB, Swansea, UK; 4. Diabetes Research Group, Swansea University Medical School, Swansea, UK

48 Knowledge, attitude and practice on continuous glucose monitoring (CGM) and self-monitoring of blood glucose (SMBG) among healthcare professionals across India: A cross-sectional study

Nitin Kapoor,¹ Shehla Sheikh,² Sambit Das,³ Navneet Agarwal,⁴ Mukut Roy⁵ and Sanjay Kalra⁶

1. Department of Endocrine, Diabetes & Metabolism, Christian Medical College, Vellore, India; 2. Department of Endocrinology, KGN Diabetes and Endocrine Center, Mumbai, India; 3. Department of Endocrinology, Kalinga Institute of Medical Sciences, Bhubaneswar, India; 4. Department of Endocrinology, Diabetes, Obesity & Thyroid Center, Gwalior, India; 5. Department of Endocrinology, Agartala Government Medical College & GBP Hospital, Agartala, India; 6. Department of Endocrinology, Bharti Hospital, Karnal, India
